

Flexibility & Operating Efficiency

- Speeds up to 500 closures per minute
- Multiple sorting choices based on closure size, shape and speeds
- Quick-change tool-less cap handling parts reduce downtime and maximizes support of various closure styles
- Integration of multiple sorting systems for demanding applications
- Durable construction built in the U.S.A. with standard 3 year warranty

Sorter Standard Features:

- Quick change elevator cleats for various cap sizes
- All stainless steel construction
- Two piece hinged Lexan bin cover
- Supports caps from 20mm to 135mm
- Access door for quick cap removal

Options:

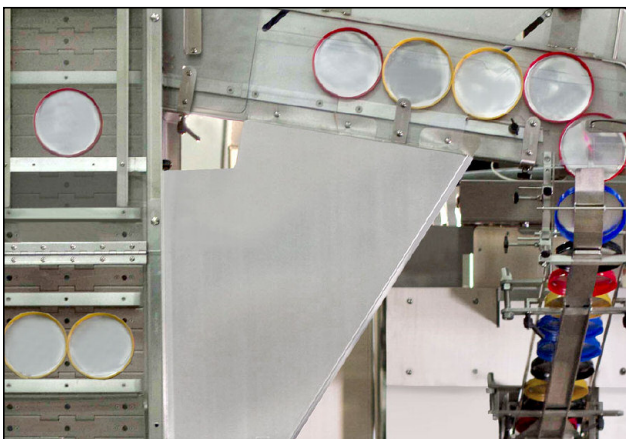

- Multiple bin sizes for operating speeds up to 500 CPM
- Integrated or standalone electrical controls
- Hazardous environment electrics
- Cap inventory level control provision

Orienter Standard Features:

- Multiple bin sizes for operating speeds up to 150 CPM
- All stainless steel construction
- Vacuum assist orienting star wheel designs to support various cap configurations
- Access door for quick cap removal

Options:

- Cap inventory level control provision
- Hazardous environment electrics

Integrated Solutions:

In addition to inline capping, cap sorting and conveying systems, Pack West Machinery also offers integrated liquid filling solutions with conveyors and complete line controls.

For higher speed applications, Pacific Packaging Machinery provides integrated rotary capping and filling solutions.
