

# INTEGRATION EQUIPMENT

## Flexibility & Operating Efficiency

- Improved automation with reduced labor
- Available in 36", 48" or 60" diameter tables
- All stainless steel construction
- Variable speed drive and controls
- Adjustable diverter mechanism to support various containers

# Rotary Accumulators / Unscramblers, Transfer Units and Conveying Systems

## Rotary Accumulator Features:

- All stainless steel construction
- Variable speed drive and controls
- Available in 36", 48" or 60" diameter tables

## Rotary Unscrambler Features:

- Adjustable diverter mechanism to support various containers
- Variable speed drive and controls
- Available in 36", 48" or 60" diameter tables

## Bottomless Transfer Unit Features:

- Used for ink jet coding or gentle conveyor transfer
- All stainless steel construction
- Integrated or standalone electrical controls with variable speed drive

## Conveyor:

- Customized conveyor lengths, widths, corners and chain styles
- All stainless steel construction with adjustable guide rails
- Variable speed drive and controls

## Integrated Solutions:

In addition to inline capping, cap sorting and conveying systems, Pack West Machinery also offers integrated liquid filling solutions with conveyors and complete line controls.

For higher speed applications, Pacific Packaging Machinery provides integrated rotary capping and filling solutions.
