

VERTICAL ROTARY SORTERS AND CAP ELEVATORS

Flexibility & Operating Efficiency

- Speeds up to 500 closures per minute
- Quick-change tool-less cap handling parts reduce downtime and maximizes support of various closure styles
- Integration of multiple sorting systems for demanding applications
- Durable construction built in the U.S.A. with standard 3 year warranty

Vertical Sorter Standard Features:

- Multiple sorter bin sizes for operating speeds up to 400 CPM
- Supports sorting of caps up to 70mm
- Quick-change cap sorting rings for multiple sizes and styles

Options:

- Cap inventory level control provision
- Integrate with Pack West Cap Elevators

Integrated Solutions:

In addition to inline capping, cap sorting and conveying systems, Pack West Machinery also offers integrated liquid filling solutions with conveyors and complete line controls.

For higher speed applications, Pacific Packaging Machinery provides integrated rotary capping and filling solutions.

Call your sales representative for additional details.

Vertical Cap Elevator (model with reduced foot-print)

Cap Elevator Standard Features:

- Elevator supports operating speeds up to 500 CPM
- All stainless steel construction
